Diameter:
17.53 mm

SPECIAL FEATURES:

First investment coin series to feature CertiPAMP packaging.

First investment coin series to be identifiable through PAMP's VERISCAN system.

Original design that was used on Australia's old Copper Penny.

Uniquely suited for both gift-givers and investment enthusiasts alike.

The Royal Australian Mint is proud to present the 2017 Kangaroo gold investment series, exclusively distributed by PAMP.

The same classic Kangaroo design that once decorated Australia's copper pennies has now been crafted with 999.9 fine gold in an investment series that is sure to delight both gift-givers and investment enthusiasts alike.

The new coins come securely sealed within PAMP's CertiPAMP™ packaging, which acts as both an airtight environment to protect the coin, and as a signed certificate of authenticity.

The coins from the Kangaroo series are the first investment products identifiable through PAMP's breakthrough bullion identification security system – VERISCAN™. As the first system of its kind, VERISCAN allows for the fast, efficient and virtually risk-free identification of the unique surface profile of associated products, and instantly verifies their authenticity.

COIN DESIGN:

The reverse of the coins in the series features the classic kangaroo design along with the Commonwealth Star, surrounded by the leaves, nuts and flowers of a Tasmanian Blue Gum. The top of the reverse design reads 'AUSTRALIA' while the bottom features the year '2017' along with the coin's metal weight and fineness.

The obverse features the effigy of Her Majesty Queen Elizabeth II, along with the text 'ELIZABETH II', 'Australia' and the face value of the coin, all of which are encircled by the leaves of a Tasmanian Blue Gum. The exceptional new release is 99.99% fine gold and is available in 4 variations of weight: 1 oz, ½ oz, ¼ oz, and 1/10 oz.
